

TRAN MINH DUC

React Native Developer

Dien thoai: 0912 345 678 Email: tranminhduc.dev@email.com Dia chi: Da Nang, Vietnam

CAREER OBJECTIVE

Mobile developer with 2 years of hands-on experience building cross-platform apps with React Native. Comfortable working independently in remote/agile teams, strong problem-solving skills, and proficient in English for daily technical communication. Looking to join a product team as a React Native Developer to deliver high-quality mobile features at scale.

WORK EXPERIENCE

React Native Developer

08/2023 - Present

Bitscape Software Co., Ltd. — Da Nang

- Developed and maintained 3 cross-platform mobile apps (iOS/Android) using React Native and TypeScript, serving over 50,000 active users.
- Collaborated with backend and QA teams to integrate REST APIs, reducing bug reports by 30% after refactoring shared components.
- Performed data analysis on crash reports and performance metrics to prioritize technical debt and improve app stability.
- Contributed to process improvement by introducing code review checklists, cutting release regression issues by 25%.
- Communicated with international clients in English during sprint reviews and requirement clarification calls.

Junior Mobile Developer (Intern to Full-time)

06/2022 - 07/2023

Danang Software Solutions

- Built UI components in React Native based on Figma designs for an e-commerce app.
- Fixed bugs and implemented small features under senior developer guidance.
- Practiced problem-solving skills by debugging cross-platform layout issues on iOS and Android.
